

ATOM DOMESTIC/SEMI-PRO LAWN EDGER

(PATENTED)

Super e-Start
Engine starts with little effort

EASY TO USE

Trigger Throttle with safety interlock and fingertip on/off ignition switch

BENEFITS	MODEL SPECIFICATIONS	DOMESTIC/SEMI-PRO LAWN EDGER
<ul style="list-style-type: none"> Light-in-weight 		

- **Strong robust construction**
- **Very Easy to Start**
- **Very Fuel Efficient**
- **Long Lasting 4-blade cutting system**
- **Affordable quality with long life**
- **Cuts neat edges everywhere**
- **Edges anywhere including round corners and curbs and gutters**
- **Environmentally friendly due to speed of job completion, extremely little fuel use, economical 4-blade cutting system**
- **Safety features throughout**
- **Quality Engineering**
- **Durable quality lawn edger with long life will outlast all other brand gasoline edgers.**

Model	415-KZ26
Engine	Komatsu Zenoah 2-Stroke
Displacement	26cc
Power	0.8 kW (1.1 hp)
Fuel	Petrol/Oil Mix
Weight	7.5kg (16.8 lbs)
Blades Length	271mm (10 ² / ₃ "
Gear box reduction	3.54:1 Hardened spiral bevel gears
Cutting Depth	75mm (3")

Full instruction/user manual supplied with each unit.

Atom's innovative patented Lawn Edger **is the world's only Gold Medal winning lawn edger**. It's unique breakthrough design was awarded the **Gold Medal** at the prestigious International Inventions and New Technology Convention in Switzerland in 1997. Previously in 1995, **the Atom Domestic Edger was voted Product of the Year** by Power Equipment Australasia Magazine.

The light-in-weight heavy duty Atom home owner lawn edger **cuts neat clean edges anywhere**, quickly and easily. The highly manoeuvrable wheelbarrow action means you can edge along curbs and gutters, around tight corners, garden plots, and by simply tilting the edger sideways you can edge up against walls and fences.

The Atom Domestic/Semi-Pro Lawn Edger has a powerful 26cc 2-stroke e-Start engine. This e-Start engine eliminates the need for a strong fast pull of the starter cord. An almost effortless slow easy pull starts this engine. The long 271mm (10²/₃") hardened spring steel 4-blade cutting system lasts a long time. Also, Atom's blades length are longer than industry standard thus adding even further longer life to the 4-blade cutting system. Atom's highly manoeuvrable wheelbarrow action enables the operator to edge as fast as he/she can walk and requires no carrying or bending.

Atom Lawn Edgers also have numerous safety features including a safety throttle trigger interlock system, fully enclosed transmission, enclosed blade guard, and automatic safety clutch.
