### ATOM ELECTRIC EDGER MODEL 310

Without doubt, the most powerful electric edger available.

- Powerful turbo-cooled all ball-bearing 2000 watt electric motor** – For those who want the ease of electricity.
- 3.54:1 Hardened Spiral Bevel Gears** – provide high torque to drive long blades.
- Reinforced, super-strength polymer casing** – built for long life.
- Anchored extension cord** – for easy attachment.
- Fully enclosed 12mm precision-ground transmission shaft** – for protection of shaft, and smooth running.
- Automatic Safety Clutch** – to prevent the motor burning out and to only allow the blade to spin when the trigger is squeezed.
- Trigger Throttle Lock** – With safety interlock and fingertip ON/OFF ignition switch.
- Strong Wheel Barrow Style Steel Handles** – for strength, ease of use and long life.
- Handle cross-brace** – for extra stability.
- Crossed blades of hardened steel** – for twice the impact to improve the quality of cut to a cutting depth of 2 1/2".
- Large fully-enclosed Blade Guard with Edge Guide** – for protection from flying objects, and a guide for cutting.
- Six position height adjustment** – for various cutting depths, and allowance for blade wear.
- Rear Debris Deflector** – for operator protection.
- Large 6" (150mm) rubber tyre wheel** – absorbs vibration and makes wheeling easy.

**\$299** (Price includes assembly and pre-delivery)

**Bonus of two blade sets worth \$30 absolutely FREE.**
