PROFESSIONAL 2-STROKE EDGER MODEL 20580 FOR THE PROPERTY OWNERS OR COMMERCIAL USERS.

- 33cc 2-stroke engine 1.6hp (1.2kw)** – Easy Start Japanese quality Mitsubishi TLE33 engine
- Gas Exchange Process of the Stratified Head** – reduces carbon emissions
- Precision Spiral Bevel 3.5:1 reduction hardened gears** – provide high torque to drive long blades.
- Reinforced, super-strength polymer casing** – built for long life.
- Fully enclosed 12mm precision-ground transmission shaft** – for protection of shaft, and smooth running.
- Heavy-duty Automatic Clutch** – the blade will only spin when the throttle is squeezed.
- Trigger Throttle Lock** – With safety interlock and fingertip ON/OFF ignition switch.
- Strong Wheel Barrow Style Steel Handles** – for strength, ease of use and long life.
- New carry-handle** – for easy carrying
- Air cushion bio-rubber grips** – to absorb vibration.
- Handle cross-brace** – for extra stability.
- Crossed blades of hardened steel** – for twice the impact to improve the quality of cut to a cutting depth of 3”.
- Large fully-enclosed Blade Guard with Edge Guide** – for protection from flying objects, and a guide for cutting.
- Six position height adjustment** – for various cutting depths, and allowance for blade wear.
- Rear Debris Deflector** – for operator protection.
- Large 6” (150mm) rubber tyre wheel** – absorbs vibration and makes wheeling easy.
