Model	Pro 2-Stroke
Engine	Komatsu-Zenoah Commercial Engine
Displacement	34cc
Power	1.2kW (1.6 Hp)
Fuel	Petrol/Oil mix
Weight (kg)	9kg (20lbs)
Blades Length	271mm (10 ² / ₃ "
Cutting Depth	75mm (3")
Gear Reduction	3.54:1 Hardened spiral bevel gears

Full instruction/user manual supplied with each unit.

Atom's innovative patented Lawn Edger **is the world's only Gold Medal winning lawn edger**. Its unique breakthrough design was awarded the **Gold Medal** at the prestigious International Inventions and New Technology Convention in Switzerland in 1997. Previously, in 1996, the Atom Professional Edger was voted Product of the Year by Power Equipment Australasia Magazine. In the USA in 2000, Atom also won the OEM MIE Award for the Atom Professional Edger

The light in weight, heavy duty Atom Professional Lawn Edger can edge anywhere. It has a powerful 34cc Komatsu-Zenoah full crankshaft commercial 2-stroke engine and long 271mm

(10²/₃") hardened spring steel long lasting 4-bladed cross-blades which can cut through the toughest overgrown grass. Also, Atom's blades length are longer than industry standard thus adding even further longer life to the 4-blade cutting system.

The highly manoeuvrable wheelbarrow action means you can edge along curbs and gutters, around tight corners, garden plots, and by simply tilting the edger sideways you can edge up against tight walls and fences.

The Atom Professional 2-Stroke Edger has a very smooth running engine and features a 7-point anti-vibration system for maximum operator comfort and is a pleasure to use.

The Atom Professional lawn edger can edge up to 90% faster compared to other edging devices, enabling the professional operator to edge and mow more lawns per day, saving time and money. It also uses up to 80% less fuel compared with other full size lawn edgers.
