NEW

PZ29 – 29hp 54, 60 OR 61 INCH CUT COMMERCIAL ZERO TURN MOWER

The largest chassis in the Husqvarna range, built for commercial use and providing incredible productivity, and excellent cutting results. Featuring the exclusive “Combi” (mulching) cutting deck, or side discharge decks.

Advanced engine technology – Fitted with a high specification overhead valve, Commercial-grade 29 hp Full Pressure-lube Twin Cylinder Kawasaki engine with an external oil filter.

Heavy duty canister style air filter – This provides the ultimate in air filtration via a remote dual cartridge system.

Versatile cutting techniques 1.5 inches to 5 inches – Choose between the 54 inch or 60 inch side-discharge cutting decks, which feature rolled edge design. The deep main deck assembly is fabricated from 7 gauge, (4.76mm thick) steel, and the front is strengthened with a rolled edge to form a leading edge of incredible strength. Or the 61 inch **Combi** deck, pressed from 7 gauge, (4.76mm thick) steel. The unique **Combi** deck can easily be converted to rear discharge.

Cutting height adjustments – Adjustable in ¼ inch increments for minor adjustments on a variety of lawns.

Dual Hydrostatic Transmission -17.7kmh – Hydro-gear variable displacement axial piston design pumps with Parker/Ross wheel motors.

The premium drive system available in zero-turn mowers.

Hydraulic Oil Filter – Filters the oil before it reaches the pump to ensure that only clean oil enters the system.

Electric PTO – 250 ft.lb – Easy engagement of cutting blades. Simply pull the switch on the control panel.

Adjustable high-back sliding suspension seat with armrests – With built-in anti-vibration and retractable seat-belt, plus, “dial-a-weight” settings for various operators. Also the seat adjusts forward and down, or backwards and up.

Heavy duty deck spindle assemblies with large sealed bearings – On the 61 inch Combi deck, for extreme workloads, less maintenance, and long life. And greaseable, automotive-style tapered roller bearings on the side discharge decks, housed in 10 inch diameter cast-iron bearing housings.

Larger greaseable heavy duty front castor wheels–Necessary for the high workload item on the zero-turn mowers.

High quality 4 ply turf tyres - 13 inch front and 24 inch rear – for improved traction, and less risk of lawn damage.

Cup holder – Convenient cup-holder for refreshments during operation.

Digital Hourmeter – Keeps a record of usage, and indicates when it is time to service the mower.

Steel cutting height adjustment – Foot assisted and easily accessible

Uni-frame –New, stronger, one piece chassis with **75mm x 50mm channel** for greater strength, and longer front pan area for greater leg room.

Large fuel tanks with angled fill necks 45.4 litres – For longer run time and easier filling.

Adjustable steering levers – For individual operator comfort.

Anti scalp deck rollers –All around the deck at the front and both sides at the rear to avoid grass scalping on undulating land.

Foldable ROPS – Roll-Over-Protection-System increases operator protection for normal conditions.

Optional mulching kit – For 54 inch and 60 inch side discharge decks. **\$359**

Optional power-vac collection system – When it is required to pick the grass up. (suits fabricated decks only). **\$3,478**

Warranty - 5 year/2000 Hours Domestic and Commercial use

“The Best Warranty in the Industry from the Biggest Name in the Industry”

Now Global No.1 in production of Ride-on Mowers

\$16,495 with the 54 inch Fabricated Deck
