Husqvarna®

PR17 AWD Articulated Steering Ride-on Mower ALL WHEEL DRIVE

- Advanced engine technology** – Fitted with a high specification 17hp OHV Commercial-grade Twin cylinder Kawasaki engine, with full pressure lubrication and an oil filter.
- Hydrostatic transmission** – Foot-controlled system optimises speed and adds to the manoeuvrability of the mower.
- All-wheel Drive (4 x 4)** – This system automatically adjusts the traction on all wheels depending on situation and ground condition.
- Front-mounted cutting deck** – For good visibility that gives you total control over your working area.
- “Combi” deck design** – A unique deck design that allows mulching or easy conversion to rear discharge. **45 inch cut**
- Articulated steering** – The most superior steering design with a minimum turning radius at full lock.
- Power steering** – Done by providing hydraulic pressure to assist when turning the wheels.
- Hydraulic equipment lift** – Easy reach joy-stick controls front-mounted cutting units quickly and with high precision.
- Hourmeter** – Keeps a record of usage, and indicates when it is time to service the mower.
- Headlights** – For that late finish or after hours use.
- 12V Outlet** – With a 12v outlet extra electrical equipment can be plugged in, charge mobile phone etc.
- Transparent fuel tank** – Able to quickly check the fuel level.
- Height adjustable steering wheel** – A telescopic steering column allows adjustment of the steering wheel height.
- Central cutting height adjustment** – With a lever on the control panel the adjustment is quick and easy.
- Cutting deck maintenance** – The cutting deck can be lifted quickly and easily to the vertical for maintenance.
- Cowl-induction cooling** – Draws in cool external air for superior engine cooling.
- Rear exhaust discharge** – The muffler is situated with the fumes being directed away from the operator.
- Cast iron rear weight** – It is fitted as the rear bumper for greater stability.
- Tow hitch** – Fitted to the rear bumper for towing a small trailer.
- Adjustable High-back premium sliding seat** – 24 inch high for excellent back support, and quick lever-control adjusts forward and down, or backwards and up.
- Anti-scalp rollers** – Large front and rear rollers to allow the cutting deck to follow the contours of the lawn.
