Husqvarna®

R18 Articulated Steering Ride-on

Advanced engine technology – Fitted with a high specification 17.5hp OHV Briggs and Stratton engine, with full pressure lubrication, an oil pump and an oil filter.

Hydrostatic transmission – Foot-controlled system optimizes speed and adds to the manoeuvrability of the mower.

NEW Front-mounted cutting deck design – For good visibility that gives you total control over your working. And now with even easier detachment system, and new re-inforcing around the deck

Combi deck design – A unique deck design that allows mulching or easy conversion to rear discharge. **45 inch cut**

Articulated steering – The most superior steering design with a minimum turning radius at full lock.

Manual equipment lift – Easy reach joy-stick controls front-mounted cutting units quickly and with high precision.

Height adjustable steering wheel – A telescopic steering column allows adjustment of the steering wheel height.

Central cutting height adjustment – With a lever on the control panel the adjustment is quick and easy.

Cutting deck maintenance – The cutting deck can be lifted quickly and easily to the vertical for maintenance.

Cowl-induction cooling – Draws in cool external air for superior engine cooling.

Rear exhaust discharge – The muffler is situated with the fumes being directed away from the operator.

Cast iron rear weight – It is fitted as the rear bumper for greater stability.

Tow hitch – Fitted to the rear bumper for towing a small trailer.

NEW Adjustable High-back sliding seat – for excellent back support, and quick lever-control adjusts forward and down, or backwards and up. **New mounting for a more comfortable ride.**

NEW Pivoting front anti-scalp rollers - to allow the cutting deck to follow the contours of the lawn.
