KBS27A Heavy Duty Property-owner Brushcutter

Introducing the NEW Kawasaki KBS27A, a powerhouse brushcutter for the property-owner, loop handle straight shaft, designed specifically for the discerning user. This brushcutter is a robust, reliable machine capable of tackling the most difficult tasks with ease.

- **Kawasaki 26.3cc 1.6hp (1.18kw) premium 2-cycle engine 4.2kg. .6 litre fuel tank**
- **1-piece electronic ignition – For easier starting**
- **Lightweight heavy duty aluminium crankcases – Best construction for heat dispersion**
- **Forged 3-piece crankshaft and con-rod with needle roller bearings – For extended engine life**
- **Durable chrome-plated cylinder with two ring piston – For extended engine life and higher compression**
- **Forced-air cooling, discharged away from operator – For operator convenience**
- **Tank guard – To save wear on the tank itself**
- **Kawasaki Advanced Recoil Starter – Greatly reduces the pulling force needed when starting**
- **Unique Auto-choke release - Push a button in, and when the throttle is squeezed, the choke is released**
- **Walbro barrel-valve carburetor for all-position operation and smooth power – For use on different angles**
- **Easy access stop switch – For operator convenience**
- **Automatic centrifugal clutch – Allows easy starting without the trimmer head turning on start-up**
- **Full anti-vibration system – For operator comfort**
- **6ml mainshaft with an inner guide and 5 supports - reduces vibration and operator fatigue**
- **Aircraft-grade aluminum outer tube – For greater stability and longer life**
- **Heavy duty debris shield – For operator safety**
- **Now with the new style user-friendly, durable Bump-feed Trimmer Head – For operator convenience**
