For three generations the Bailey family has been involved in getting the best out of the ground. Baileys Fertilisers is a West Australian family owned business that produces a large range of top quality, environmentally friendly and widely recommended horticultural fertilisers and mulch.

In April 2000 Baileys achieved International Standards ISO9001 for the production of fertilisers and potting mixes, and the storage, distribution and spreading of fertilisers.

Because Baileys has been pro-active in research & development, most Western Australian shire councils and groundskeepers at leading sporting venues now specify the products that Baileys have developed.

Premium Lawn Foods

Benefits of Baileys Brilliance Fertiliser:

Even fertilising effect, as all individual materials are fully soluble.

A small quantity of Brilliance fertiliser covers a large area.

Brilliance 20kg bag \$52

An all new high analysis lawn food of small granules.

Combined, they produce an effective nutritionally balanced lawn food, which is phosphate free, producing a healthy drought tolerant lawn.

Application Rates- Brilliance

Kikuyu/Buffalo: 1kg per 100 Square Metres

Couch: 2kg per 100 Square Metres
