SHINDAIWA DH2510 24 INCH C4 TECHNOLOGY HEDGETRIMMER

The Shindaiwa DH2510 is powered by a high-torque, C4 Technology[®] engine designed for the demanding commercial market. This Shindaiwa hedge trimmer features the all-position operating range and great throttle response of a 2-stroke. But the low engine noise, improved fuel economy, and dramatically reduced exhaust gas emissions of a C4 Technology[®] engine.

- Japanese quality – Shindaiwa-built premium 4-stroke engine
- Shindaiwa C4 Technology[®] 24.5cc – 1.1hp (.8kw) 5.9kg total weight.
- Chrome plated cylinder with 2-ring pistons
- Forged 3 piece crankshaft and con-rod with needle roller bearings at each end
- Air purge for easy starting
- Walbro WYL barrel valve carburetor for all position use; excellent throttle response, and fuel metering
- Non-reversible heavy-duty air filter
- Low exhaust emissions
- Better fuel economy compared to 2-cycle engines
- High blade speed for faster, cleaner cuts
- Double-sided 24 inch reciprocating blades
- ,” StaySharp”™, chrome-plated double-sided reciprocating blades that cut with more precision, and stay sharp longer.
- Anti-vibration front and rear handles
-
